BOT 211

SECTION A

Answer ALL questions in this section. (30 Marks)

1. Explain five anatomical adaptations of xerophytes. (5 marks)
2. Describe the structure and function of palisade mesophyll. (5 marks)
3.
   a) Highlight flower types based on ovary position in relation to the floral leaves. (3 marks)
   b) Outline four functions of parenchyma cells. (2 marks)
4.
   a) Describe three modified roots. (3 marks)
   b) Differentiate verticillate from alternate phyllotaxy. (2 marks)
5.
   a) List six characteristics of meristematic cells. (3 marks)
   b) Define the following terms:
      i. Fascicular cambium. (1 mark)
      ii. Phellem. (1 mark)
6. Summarize the primary structure of stele in a dicot stem. (5 marks)

SECTION B

Answer any TWO questions in this section. (40 Marks)

7. Write an essay on xylem tissue. (20 marks)
8. Discuss seed dispersal. (20 marks)
9. Describe fruit types based on the nature of their fruit wall. (20 marks)

Main and Town Campuses
Second Year Examinations 2021/2022 Academic Year

UCC 203: GENDER STUDIES

Instructions to candidates: Answer **ALL** questions in **SECTION A** and **TWO** questions in **SECTION B**.

SECTION A

16. (a).Outline the manifestations of gender-based discrimination in Kenya (18 marks)

(b). State the salient tenets of the Role Theory (6 marks)

(c). Explain the application of Role Theory in the understanding of gender role development 6 marks)

SECTION B

2 7. Explain the following approaches to development:

(a). Women in Development (WiD) (10 marks)

(b). Gender and Development (GaD) (10 marks)

3 8. The *feminist movement is analogous to the Tower of Babel*. Explain this analogy using any four (4) strands of feminism (20 marks)

A 9. With the use of relevant illustrations, explain how gender is related to:

(a). Health and illness (5 marks)

(b). Religion and morality (5 marks)

(c). Power and governance (5 marks)

(d). Agriculture and livelihood (5 marks)

5 10. Differentiate the following pairs of concepts as they relate to gender:

(a). Patriarchy and femininity (5 marks)

(b). Gender equity and gender equality (5 marks)

(c). Gender mainstreaming and feminism (5 marks)

(d). Gender identity and gender role (5 marks)

6 11. The alleviation of gender-based violence in society is the responsibility of all stakeholders. Explain how this can be achieved in Kenya (20 marks).

ZOO 212

Answer ALL Questions in Section A and any TWO Questions in Section B

SECTION A (30 Marks)

1. Discuss the cell theory. (5 Marks)
2. Discuss the constituents of a nucleotide molecule. (5 Marks)
3. Explain the polarity of Golgi apparatus. (5 Marks)
4. Describe the major processes for preservation and transmission of genetic information. (5 Marks)
5. a) Explain why large polar molecules do not easily cross through the cell membrane. (3 Marks)
   b) Explain the fluidity of the cell membrane. (2 Marks)
6. Outline the stages of food breakdown in the process of ATP production. (5 Marks)

SECTION B (40 Marks)

7. Describe DNA replication. (20 Marks)
8. Illustrate the sequence of events by which a body cell is able to replace itself. (20 Marks)
9. Discuss movement of substances across the cell membrane. (20 Marks)

33 679/21

QUESTION ONE (25 MARKS)

a) A committee appointed by the recently elected Government in the USA has approached you to advise on the best economic policies that will enable the country realize rapid growth and development. You have advised the committee to formulate policies that allow for free trade as espoused by Adams Smith.

Required

i. Explain five reasons to support the choice (10 marks)

ii. Provide three limitations of this approach in the Kenya's context (3 marks)

b) Set out five dimensions of development (5 marks)

c) Distinguish between economic growth and economic development (4 marks)

d) Identify three ways in which education should contribute to sustainable development (3 marks)

QUESTION TWO (15 MARKS)

a) Identify five composite indicators of development (5marks)

b) Explain five reasons why it is preferable to use composite indicators when measuring economic development (10 marks)

QUESTION THREE (15 MARKS)

a) Describe four characteristics of transitional societies (8mrks)

b) Explain two contributions of regional integration in economic growth and development in Kenya (4 marks)

c) Identify three benefits of participatory approach to economic development (3 marks)

QUESTION FOUR (15 MARKS)

a) Explain five functions of a government in economic development (10 marks)

b) Provide five negative impacts of globalization to developing economies (5 marks)

QUESTION FIVE (15 MARKS)

a) Identify five limitations of GDP per capital in measuring economic growth (5marks)

CamScanner

UCC 202 3369/2

b) Explain three conditions that are necessary for economic take-off stage as expounded by Rostow's theory (6 marks)

c) Explain how the vicious circle of poverty operates to perpetuate the low level of development in Africa (4 marks)

QUESTION SIX (15 MARKS)

a) Discuss five dimensions of sustainable development. (10 marks)

b) Identify five negative effects of foreign aids to developing economies (5 Marks)

CamScanner

EDF 211

INSTRUCTIONS: ANSWER QUESTION ONE AND ANY OTHER THREE

1(a) Discuss five reasons for the study of History of Education in teacher education programmes. (5 marks)

(b) Examine five aims of education that were imparted in the new Athenian Education. (5 marks)

(c) Analyze five roles of African Indigenous Education during the pre-colonial period. (5 marks)

(d)Evaluate five contributions of renaissance ideals to the development of education. (5marks)

(e) Assess five roles played by Missionaries in the development of education in Kenya. (5 marks)

2. a) Explain five features of education during the ancient civilisation. (5 marks)

b) Discuss five contributions of John Amos Comenius in Education theory and practice. (10 marks)

3. a) Evaluate five factors that influenced the development of Education in Africa during 1920-1945. (5 marks)

b) Demonstrate how "the five Formal Steps of Recitation" of John Friedrich Herbert (1776-1841) have influenced the theory and practice of Education in Kenya. (10 marks)

4. a) Analyse five challenges facing the development of education in Africa (5 marks)

b) Discuss five ways through which Ancient Egyptian education has influenced modern education. (10 marks)

5. a) Evaluate the main features of change in the system of education in Kenya since independence. (5 marks)

b) Explain the contributions which Islam education has had in the development of Western culture. (10 marks)

ANSWER QUESTION ONE (COMPULSORY) AND ANY OTHER THREE (3). EACH NEW QUESTION SHOULD START ON A SEPARATE PAGE ON THE ANSWER BOOKLET

QUESTION 1 (25MKS)

a) The image on **Appendix 1** is an extract from a page of a Form II text book material. Use it to answer question 1 (a) (i) and (ii) below.
   i) With reasons, explain why you **WOULD** recommend the text book as a resource in your subject area. (8mks)
   ii) Explain why some teachers **WOULD NOT** use the text as the chief instructional material. (3mks)

b) Suggest how one can overcome four (4) challenges associated with chalkboards as instructional resources. (8mks)

c) Explain how vertical, horizontal and diagonal flow of communication relate during the teaching learning process. (6mks)

QUESTION 2 (15MKS)

a) Giving examples, enumerate 5 resources found on the internet that can be useful for teaching and learning of content in your subject area. (5mks)

b) All graphic resources for instructional purposes must be creatively and carefully designed. Evaluate any 5 principles that must be followed to achieve this. (10mks)

QUESTION 3 (15 MARKS)

a) Explain any **three** challenges associated with the use of Instructional resources during a teaching learning process. (3mks)

b) Illustrate how any four language barriers can be overcome during the teaching learning process. (12mks)

QUESTION 4 (15 MARKS)

a) Relate how a teacher can implement the first three steps of the ASSURE model when planning a lesson that utilizes instructional media. (9mks)

b) Explain how you can ensure effectiveness in the execution of the following routine procedures of the Learning Resource Center.
   i. Cataloguing. (3mks)
   ii. Circulation. (3mks)

QUESTION 5 (15 MARKS)

a) You have organized an out of school lesson to a facility near your school. Discuss seven guidelines to follow while conducting the lesson. (7mks)

b) You are about to facilitate a radio broadcast lesson in your subject area.
   i) Illustrate four (4) attributes that a radio broadcast lesson should possess (4mks)
   ii) Explain four (4) preparation guidelines a teacher should follow before presenting a radio broadcast lesson. (4mks)

CHE 215

INSTRUCTIONS

- DO NOT WRITE ON QUESTION PAPER
- ATTEMPT ALL QUESTIONS

CONSTANTS:

Values of R=0.0821 $Latm^{-1}K^{-1}Mol^{-1}$; Boltzmann constant (K)=1.381×10^{-23} J/K

Atomic masses: H=1.0, C=12.0, N=14.0, O=16.0, Na=23, Al=27.0

Molar heat capacity: Al=24.53 $J^{\circ}C^{-1}Mol^{-1}$; Specific heat capacity: H_2O=4.184 $J\ ^{\circ}C^{-1}g^{-1}$

QUESTION 1 (18 MK)

a) Define the following terms:

i. Microstates (1 MK)

ii. Entropy (1 MK)

b) With the aid of suitable diagrams, show the differences between closed and isolated systems. (4 MK)

c) State the differences between adiabatic and isothermal expansion. (4 MK)

d) Show that $\Delta H=q$ in a system at constant pressure. (4 MK)

e) A system with a volume of 25 litres absorbs exactly 1 KJ of heat. Calculate the change in internal energy in joules. System expands against constant pressure of 1.00 atm to a volume of 28.95 litres. (4 MK)

QUESTION 2 (17 MK)

a) A two chambered container holds unknown number of particles in chamber X whereas chamber Y is evacuated. If the stopper separating the two chambers is removed, determine the number of microstates for the system if the change in entropy (ΔS) for the system is 1.34×10^{-22} J/K (3 MK)

b) Identify the compound that has lower entropy in each of the given pairs.

(i) 1 mol of $SO_2(g)$ or 1 mol of $SO_3(g)$ (1 MK)

(ii) 3 mol of C_2H_6 (g) and 3 mol of C_2H_5OH (l) (1 MK)

(iii) 1 mol of KBr(s) or 1 mol of KBr(aq) (1 MK)

(iv) 3 mol of $O_2(g)$ or 2 mol of $O_3(g)$ (1 MK)

CamScanner

CHE 215

c) Predict the sign of ΔS for the following processes.
(i) Formation of PCl_3 from phosphorous and chlorine (1 MK)
(ii) Precipitation of BaI_2 from a reaction between $Ba(NO_3)_2$ and KI solution (1 MK)
(iii) Dissolution of hydrogen chloride gas in water (1 MK)
(iv) Sublimation of iodine (1 MK)

d) At 25 °C, sulphur (vi) oxide is formed from a reaction between sulphur (iv) oxide and oxygen as shown in the equation: $2SO_2(g) + O_2(g) \rightarrow 2SO_3(g)$
(i) Use the values provided in the table below to determine ΔS universe for the process. (5 MK)

Substance	ΔH ° (KJ/mol)	ΔS °(J K^{-1} mol^{-1})
$SO_2(g)$	-296.8	248.2
$SO_3(g)$	-395.7	256.8
$O_2(g)$	0	205.1

(ii) With a suitable explanation, predict if the reaction occurs spontaneously at 25 °C. (1 MK)

QUESTION 3 (17 MK)

a) Derive ideal combined gas law. (3 MK)

b) A mixture of 40.0 g of oxygen and 40.0 g of helium has a total pressure of 0.900 atm. Determine the partial pressure of each gas. (5 MK)

c) A molecule of oxygen has an average speed of 12.3 m/s at a given temperature and pressure. Calculate the average speed of hydrogen molecules at the same conditions. (4 MK)

d) Carbon dioxide gas (1.00 Mole) at 373 K occupies 536 mL at 50.0 atmosphere pressure (theoretical value). Calculate the real value of the pressure using: Van der Waals equation and determine % deviation from the theoretical value. (Van der Waal's constants for CO_2: a = 3.61 L^2 atm mol^{-2}; b = 0.0428 L mol^{-1}). (5 MK)

CHE 215

QUESTION 4 (18 MK)

a) Work out the amount of energy lost in joules if 25.0 g of aluminum cools from 310 °C to 37 °C. **(2 MK)**

b) Determine the specific heat capacity of a material if a 35 g sample absorbed 96 J as it was heated from 293K to 313K. **(2 MK)**

c) Give the enthalpy of the reaction: $2\ NO\ (g) + O_2\ (g) \rightarrow 2\ NO_2\ (g)$. **(3 MK)**

Given the following reactions and enthalpies of formation:

$\frac{1}{2}\ N_2(g) + O_2(g) \rightarrow NO_2(g)$ $\quad \Delta H = 33.2$ kJ

$\frac{1}{2}\ N_2(g) + \frac{1}{2}\ O_2(g) \rightarrow NO(g)$ $\quad \Delta H = 90.2$ kJ

d) A 1 .000 gram sample of the rocket fuel hydrazine (N_2H_4) is burned in a bomb calorimeter. The temperature rises from 24.62 °C to 28.16 °C. The heat capacity of the calorimeter (including the water) is 5860 J/ °C. Calculate the heat of combustion of hydrazine in KJ/mol. **(4 MK)**

e) A student added 4.00 g of NaOH(s) to 100 g of water in a polystyrene foam cup. The temperature of the water rose by 10.0 °C. Assuming the polystyrene foam cup is well insulated; determine the molar enthalpy of solution of sodium hydroxide in kJ mol^{-1}. **(4 MK)**

f) A 50 mL of 0.20 mol L^{-1} lead (II) nitrate solution at 19.6 °C was added to 30 mL of a solution containing excess potassium iodide also at 19.6 °C. The solutions reacted to form a yellow lead (II) iodide precipitate and the temperature of the reaction mixture increased to 22.2 °C. Give the enthalpy change in KJ per mole of lead (II) iodide precipitated for the reaction.

$Pb(NO_3)_{2(aq)} + 2KI_{(aq)} \rightarrow PbI_{2(s)} + 2KNO_{3(aq)}$. **(3 MK)**

BOT 222

Answer ALL questions in Section A and any TWO questions in Section B

SECTION A. Answer (30 marks)

1 Define the following terms.

a) Biotic potential. (I mark)

b) Environmental resistance. (I mark)

c) Net primary production. (I mark)

d) Intraspecific competition. (I mark)

e) Commensalism. (I mark)

2 Diagrammatically illustrates types of ecological pyramids. (5 marks)

3 Differentiate between autogenic and allogenic plant succession. (5 marks)

4

a). Outline **five** characteristics of Human food chains. (2.5 marks)

b). Highlight **five** characteristics of Tundra biome. (2.5 marks)

5 Discuss human influence on Nitrogen cycle. (5 marks)

6 Explain how survivorship curves are used to explain the age distribution of a population. (5 marks)

SECTION B. (40 marks)

7

a). An ecological community has 32 Pines trees, 12 Mahogany and 18 cypress trees species. Explain and use Shannon-Weiner Index to calculate species index of diversity. (10 marks).

b). Describe effects of air pollutants. (10 marks).

8 Discuss the impact of Human Population Growth on Resources and Ecosystem. (20 marks)

9 Discuss the carbon cycle. (20marks)

BOT 222

Answer ALL questions A and Any TWO Questions in section B

SECTION A: (30 marks)

1. Define the terms: - (5 marks)
   i. Community
   ii. Ammonification
   iii. Seral community
   iv. Biome
   v. Environmental resistance

2.
a). Explain the six phases of ecological succession as outlined by F. E. Clements. (3 marks)
b). Citing examples, discuss two oppositional ecological relationships. (2 marks)

3. Discuss the concept and characteristics of climax community. (5 Marks)

4.
a). Distinguish between:
   i. Sedimentary and gaseous cycle. (1 mark)
   ii. Random and clustered dispersion. (1 mark)
   iii. Natality and Mortality. (1 mark)

b). Describe two reason why human population growth has dramatically increased in the last century. (2 marks)

5.
a). Give reasons why pyramid of energy is always upright. (3 marks)
b). Explain the two laws of thermodynamics within ecosystems. (2 marks)

6. Classify zonation of temperate deciduous forests. (5 marks)

SECTION B: (40 marks)

7. Discuss causes and effects of water pollution in ecosystem. (20 marks).

8.
a). Discuss population growth curves. (10 marks)
b). Describe estimation of population using capture recapture method. (10 marks)

9. Describe the carbon cycle. (20 marks)

Answer Question One (Compulsory) and any other three (3). Each of the 4 questions should start on a new page on the answer booklet

QUESTION 1 (25MKS)

a) Define and describe the functions of the following sections of a standard classroom text book material
   i) Index (3mks)
   ii) Glossary (3mks)
   iii) Publishers Details (4mks)

b) Describe and provide meaning to any four types of non-verbal communication used in a classroom setting (8mks)

c) Discuss four (4) advantages and three (3) disadvantages of installing Interactive Smart Boards as writing surfaces in modern classrooms (7mks)

QUESTION 2 (15MKS)

a) Explain how you can achieve effectiveness of the following during an instructional process that utilizes instructional media
   i) Analyzing learner characteristics (3mks)
   ii) Selecting, media material (3mks)
   iii) Assuring learner participation (3mks)

b) Discuss the budgeting guidelines that must be followed before procuring equipment of a Learning Resource Center (6mks)

QUESTION 3 (15 MARKS)

a) You are about to use an Instructional Film to facilitate a lesson in your subject area
   i) Explain why an Educational Film is more preferable than an Educational Radio Broadcast (4mks)
   ii) Explain the preparation guidelines that teachers follow before utilizing an Educational Film for instructional purposes (4MKS)

b) Describe the value of Models as 3D Instructional Material (3mks)

c) Enumerate rules that guide the construction of Models as Instructional Material (4mks)

QUESTION 4 (15 MARKS)

a) Describe the challenges associated with the use of Internet Based Learning in the COVID and post COVID period in Kenya (4mks)

b) Describe how any of the three (3) challenges described in 4(a) above can be overcome (3mks)

c) On a full page, and guided by the principles of graphic design, construct an Organizational Chart appropriate for teaching a topic/sub topic in your subject area. (8mks)

QUESTION 5 (15 MARKS)

a) Explain four ways in which the language of instruction can act as a barrier to classroom communication (4mks)

b) Suggest how the barriers described in 5(a) (above) can be overcome (4mks)

c) Explain how the Scram and Osgood Model communication model apply to a
